

Separating magnet

Separation of sheets without costs for energy.
Available in different sizes for different thickness of sheets.

Type	Width (mm)	Thickness (mm)	Height (mm)	Max plate thickness (mm)
SM208	103	28	208	1
SM308	103	28	308	1
SM442	103	28	442	1
SM210	104	49	210	2
SM310	104	49	310	2
SM411	104	49	411	2
SM277	179	88	277	4
SM400	179	88	400	4
SM500	179	88	500	4
SM344	279	94	344	5
SM545	279	94	545	5
SM612	279	94	612	5

PMGD - Application triangle fixer with on/off

Widely used in iron parts welding, jointing in 120°, 90° or 45° in architecture and finish machining field and soon.

Features:

- strong suction
- easy to switch
- L x W x H (mm): 150 x 130 x 35

How to use: to put fixer on suitable place over the iron plate then turn the switch to ON.

Magnetic catcher

Hard plastic body plus magnetic system. The catcher can attract iron/steel parts or things such as screws. It can move iron/steel things or separate iron/steel things from other materials.

L x W x H (mm): 240 x 100 x 210

Magnetic cleaner for cleaning T-slot

- sucks the burs
- replace the brush or compressed air
- let the cooling liquid stay

Magnetic clean sweeper - SP 400

Forget all burs or other scrap which get stuck in the brush. Just sweep over it and you suck it all up; dust, burs and other sheet parts. The shape of the sweeper makes it easy to get under machines and corners.

L x W x H (mm) : 520 x 250 x 950

Permanent Magnet Lifter, Model PMJ-250/500, has strong magnetic path by Nd-Fe-B magnetic materials. On and off of the magnetic path is controlled by the manual handle. PMJ permanent magnetic lifters mount magnet as power, lifting power will never weaken.

Features:

- Lightly and ingeniously structured
- easy for application
- strong magnetic attraction power and safe in handing

PMJ-250/500 lifting magnets with a lift capacity up to 500 kg PMJ-30 magnetic sheet mover with a capacity up to 30

TYPE	Length (mm)	Width (mm)	Height (mm)	Lift capacity (kg)	Weig15ht (kg5)
PMJ-30	158	148	180	30	2
PMJ-250	190	120	260	250	5
PMJ-500	300	200	300	500	15

Lifting magnet

To lift heavy parts. Ideal for lifting sheets. Use this instead of heavy chains or roaps.

This magnet does also work excelent for AGAB die changer WG 1000. Instead of hook on all dies this magnet is monted direct on the push/ pull arm.

Type	Width (mm)	Length (mm)	Capacity Plate (kg)	Capacity Cylinder (kg)
PML100	62	92	100	50
PML300	92	162	300	150
PML600	122	232	600	300
